- 5.1.3. On the general weigh-in, the registered boxer's weight should not exceed the maximum of the boxer's weight class nor be below the minimum of the boxer's weight class. The weight registered at the general weigh-in on the first day decides the boxer's weight class for the entire competition, but this boxer will still be required to weigh-in each day on which this boxer is due to box to ensure that the actual weight on that day does not exceed the maximum of the boxer's registered weight class.

A contestant may only box in the weight for which this boxer has qualified during the general weigh-in.

- 5.1.4. Scale - The weight is the one shown on the scale, the body being naked except for a swimming suit or underwear. When necessary, the boxer may take off the underwear on the scale only. Electronic scales may be used. Trial scales used at the tournament and official weigh-in scales have to be of the same manufacturer and of the same calibration.
- 5.2. In All Non-AIBA Approved Events

 - 5.2.2. If a boxer exceeds the weight limit of the boxer's class, this boxer can be authorized to box if the excess weight is no greater than 500 grams but whatever the result of the contest may be, the boxer who has exceeded the weight may only gain for the boxer's team the number of marks allotted to a loser, and the boxer's opponent (provided the boxer has made the weight and passed the medical examination on that particular day and is present in the ring dressed for boxing) shall gain the marks allotted to the winner. If both boxers exceed the weight limit for the class for which they have been entered, they will gain for their teams only the number of marks allotted to a loser. If the excess weight of a competitor is greater than 500 grams, but does not exceed 3 kg, the official representative of the opposing team shall be entitled to accept this boxer and the bout shall be considered as having been won by the team of the boxer who has made the weight. A competitor must be considered fit to compete by the appointed qualified Doctor of Medicine before being weighed-in.

RULE 6. SUBSTITUTION OF BOXERS ON GENERAL WEIGH-IN

- 6.1. A competitor will be allowed to be present at the official scales only once at the first medical examination and general weigh-in. The weight recorded on that presentation is final.
- 6.2. It is permissible, however, for the delegate of the nation of any competitor who has failed to make the weight at the general weigh-in to enter this boxer thereupon for the higher or lower weight for which this boxer is qualified if such nation has a free place at that weight, and the general weigh-in is not yet closed.
- 6.3. It is also permissible for a nation to substitute one boxer for another at any time up to the close of the general weigh-in and the medical examination, provided that in any competition where reserves are permitted, the substitute boxer has been entered as reserve for that weight, or any other weight.

In special situations, the Technical Delegate has the right to relax this rule.

- 7.2. The draw for the Olympic Games shall be held one day before the competition.
- 7.3. The computerized draw system is to be used in all AIBA Approved Events. In the case the computerized draw system is not working, the manual system can be used. The general weigh-in and the official draw shall be held on the same day.
- 7.4. Byes - In competitions where there are more than four competitors, a sufficient number of byes shall be drawn in the first series to reduce the number of competitors in the second series to 4, 8, 16 or 32. Competitors drawing a bye in the first series shall be the first to box in the second series. If there are an odd number of byes, the boxer who draws the last bye will compete in the second series against the winner of the first bout in the first series. Where the number of byes is even, the boxers drawing byes shall box the first bouts in the second series in the order in which they are drawn. No medal shall be awarded to a boxer who has not boxed at least once.
- 7.5. Bout Schedule - At the Olympic Games, World Championships and Continental Championships, the bout schedule should be arranged in the order of weights so that in each series the lightest weights will be run off first and thereafter in order of weights up to the heaviest weights in that series followed by the lightest weights in the next series, and so on. In arranging the schedule of the finals and semi-finals of championships, the wishes of the Local Organizing Committee may be accommodated by the Technical Delegate, as long as the results of the draw are not called into question.
- 7.6. Possible Re-Draw - In any case, until the last weight category draw is completed, if there is any mistake or unavoidable circumstance taking place, the Technical Delegate has the right to order the particular weight draw(s) to be done again.
